### Attention Dairy Product Manufacturers and Food Processors!

The CDC has created two new Funds in support of innovation and technology transfer placing particular emphasis on companies who lack the resources, time and expertise to resolve dairy product innovation and/or product reformulation issues.

#### Direct Access Fund

The DAF allows companies to seek expert advice from a recognized food science centre/institution for up to 7.5 hours or \$1,500 of free consultation on a specific project. In the case where additional advice is required, the CDC may provide funding on a cost-shared basis.

#### Innovation Support Fund

The ISF serves to replace the Milk Ingredients Technical Support Program. The ISF will continue to provide the same financial support and expertise in the areas of product analysis, pilot scale trials and packaging techniques to food processors, but will now also be available to dairy product manufacturers. This Fund will assist these sectors in bringing new and reformulated products to market. Funding will be available up to a limit of \$25,000 per project.

For more information on these Funds, contact:

**Dalal Nasrallah**  
Tel: (613) 792-2035  
Toll-free: 1-866-366-0676
