

December 2006 Issue

Notice on Special Class 5 (c) Pricing

The current component pricing of \$2.00/kg for solids non fat and \$3.37/kg for butterfat available to 5 (c) permit holders will remain in effect until July 31st, 2007.

Special Milk Class Prices 5 (a), (b), and (c) for the month of: January 2007

Milk Class	Butterfat (\$/Kg)	Protein (\$/Kg)	Other Solids (\$/Kg)
------------	-------------------	-----------------	----------------------

5 (a)	3.4697	5.2982	0.5882
-------	--------	--------	--------

5 (b)	3.4697	2.0923	2.0923
-------	--------	--------	--------

5 (c)	3.3740	2.0000	2.0000
-------	--------	--------	--------

Classes 5 (a) and 5 (b) prices are based on actual U.S. component prices converted to CDN \$/Kg.

For all questions relating to the Special Milk Class Permit Program or permits, please contact Paula Harvey in Finance and Operation by telephone at (613) 792-2057 or by email at pharvey@agr.gc.ca.

What's in Canadian Milk?

How many vitamins and nutrients are there in milk? Are there hormones in milk? Do dairy farmers give antibiotics to cows and if so, do they show up in the dairy products we purchase and use? These and other questions have been raised by food processors whose level of awareness on food safety and traceability issues is growing daily as a result of the media attention being devoted to these issues. The problem is, not all media reports and studies are well researched and/or are simply a re-hashing of out-dated material used to re-enforce a particular point of view.

Visit MILKINGREDIENTS.CA to read the latest edition of *The Expert's Forum*. The November 2006 issue features the article "What's in Canadian Milk?", which attempts to clarify some of the uncertainties and myths surrounding the quality of Canadian milk.
