### Are you innovating or reformulating with dairy?

The **Direct Access Fund** (DAF) provides up to 7.5 hours (or the equivalent of \$1,500) of free consultation with recognized food science and technology institutions. The **Innovation Support Fund** (ISF) provides financial support and expertise in the areas of product innovation and analysis, pilot scale trials, packaging techniques, technology transfer and product reformulation. Eligible projects could receive up to 75 percent of the cost of the project, to a maximum of \$25,000.

Since the launch of these new Funds, several Canadian companies have taken advantage of the valuable technical support services being offered. To date, 23 **DAF** projects have been successfully completed along with 14 **ISF** projects currently approved and underway.

If you're innovating or re-formulating dairy products or finished food products containing Canadian dairy ingredients, your project(s) may qualify for funding assistance.
