STELA Symposium Research: Motor of Innovation for the Dairy Sector.

When: May 30 and 31, 2011

Where: Hotel Palace Royal, Québec, QC

The *2011STELA Symposium* closes STELA's 25th anniversary year-long celebration. A year that was full of scientific activities for all audiences and that was used to measure the importance of research as an engine of innovation for the dairy sector.

The symposium's organizing committee emphasized this important step by inviting several international research scientists to join STELA scientists and students to offer a most interesting program. Speakers will address the advancement in leading edge research on topics such as dairy and cheese technology, microbiology, human nutrition, and integrated approaches and knowledge transfer to improve research results applications.

These two days of scientific activity offer the opportunity to meet the STELA research scientists and students and to discuss their work and current issues. It's also a unique opportunity to network with speakers and participants from numerous sectors of the dairy industry.

For more information on 2011 STELA Symposium or to register, visit:
